# Incident Management Plan

## 1.1 Purpose & Scope of this document

The purpose of this document is to assist the School to define an incident response structure that would be required in the event of an incident occurring at the School. In doing so it outlines the key roles and responsibilities in responding to and recovering from an incident.

The Business Continuity Standard BS 25999 states –

*“In any incident situation there should be a simple and quickly-formed structure that will enable the organisation to:*

- *Confirm the nature and extent of the incident*
- *Take control of the situation,*
- *Contain the incident, and*
- *Communicate with stakeholders”*

This document is not intended to be a prescriptive list of actions to take to manage an incident.

## 1.2 Incident Management Team

### Incident Management Team structure

The Incident Management Team is made up of the Senior Leadership Team. The team needs to form and react as soon as possible to the incident. On forming, those present can take decisions to apply appropriate resources to deal with an event as it occurs (ideally to prevent it becoming a crisis).

The key roles of the Incident Management Team are to:

- Provide strategic direction, especially at a local level
- Hold ultimate responsibility
- Represent the public face of the School
- Assume responsibility for co-ordinating incident management
- Provide direction / support as required to staff and students and outside agencies to effectively manage the incident at an operational level

The table below shows the members of the Incident Management Team:

Name	Role
Mr Finlay Douglas	Head Teacher
Mr Phil Wilson	Assistant Head Teacher
Miss Michelle Bartle	Assistant Head Teacher
Mrs Katy Cozens	Assistant Head Teacher
Miss Geraldine Osborne	School Business Manager
Mr Paul Mayo	Site Manager
Mr Lee Varga	IT Systems Manager

<b>Other Specialist Equipment Held if Necessary (e.g. Digital TV &amp; Radio, fax)</b>	No	No

## 1.4 Incident escalation and invocation of the Business Continuity Plan

### 1.4.1 Incident escalation process

It is vital that the School has a clear and simple method by which it can quickly recognise a business continuity threat and act accordingly. It is better to over-react to serious incidents and then stand down members of staff than to under-react.

The agreed escalation and invocation framework to be adopted and understood by all is set out below.

#### Diagram 1 – Escalation and Invocation

The Head Teacher has the authority to compel all members of the Incident Management Team to meet as soon as is reasonable to discuss an incident, or the threat of an incident, which could force the Business Continuity Plan to be invoked.

### 1.5 Example actions for the Incident Management Team

No	Action	Completed Yes / No
1.	Determine nature of incident and extent of impact on the School (see Appendix A – Incident Assessment Form).	
2.	Ensure priorities have been identified.	
3.	Decision taken to invoke Business Continuity Plan.	
4.	Decide on location of meeting room.  Call up other members of Incident Management Team as relevant and get them to come to the meeting room.	
5	Open an incident log (see Appendix B) to record key actions and decisions taken.	
6.	Identify resources required to deal with incident	
7.	Consider implementation of Communications Strategy (internal and external).	
8.	Agree a time for next meeting and follow on meetings and briefing and reporting into incident log.  Agree monitoring process for plan implementation and frequency of reports to Principal.	
9.	Consider the plan for recovery (focused on Mission Critical Activities and non-critical activities).	
10.	On conclusion of incident stand down Team and instigate the lessons learnt review.	

## Appendix A – Incident Assessment Form

This table is to be used by the Incident Management Team for completing an initial assessment of which Mission Critical Activities have been impacted and the likely duration of the impact.

Priority Order	Mission Critical Activity	Accountability for Mission Critical Activity	Nature of Impact	Duration
1	Safety of staff and students (Duty of Care)			
2	Reception / switchboard (receiving and giving information)			
3	Leadership			
4	Site security			
5	School trips (school trip happening)			
6	School trips (incident happened on school trip)			
7	Managing catering			
8	Internal communication with staff and students			
9	External communications with key stakeholders			

10	Ability to provide exams (at exam time)			
11	School trips (school trip in the near future)			
12	ICT support (IT services) MIS / Internet			
13	HR support (payroll at a critical time in the month)			
14	ICT support (phones)			
15	Creditors (payments)			
16	Financial management (operating the finance system)			
17	Calendar events			
18	Provision of teaching facilities e.g. classrooms, sports hall			
20	Qualification driven teaching and learning

## 4.1 Summary of key documents and location

Should a significant incident occur there are a number of key documents which may need to be referred to in order to effectively manage the emergency.

Below are a few questions which may assist in identifying and accessing key documentation.

- What key documents would be required or prove useful should a significant incident occur?
- How accessible are these documents?
- What format are the documents in e.g. electronic, paper?
- Who is the owner of the document(s)?
- Are the documents the most up to date versions?

The table below identifies possible example documents that may be required should an incident occur:

**Table summarising key documents and location**
